STRONG PARTNERSHIPS. STRONGER RESULTS.

Since 2007, we've been on a mission to keep businesses moving by delivering premium parts and services across a wide range of industries. As a division of Genuine Parts Company (GPC), a global leader in automotive and industrial parts and solutions, we have the reach and resources to source engines, transmissions, and components for nearly any fleet — from commercial trucks and mass transit vehicles to emergency services, construction equipment, agriculture, and marine vessels.

With an inventory of over 500,000 parts from over 1,000 of the most trusted suppliers in the industry, you'll always work closely with knowledgeable experts who can get you what you need, when you need it.

WE BELIEVE IN THE POWER OF UNITY.

Our family of brands has come together to serve you better, ensuring the businesses you trust are now part of something even stronger. **Explore our family of brands.**

TRACTION 

ADVANCED FRICTION TECHNOLOGY. **PROVEN TO GO THE DISTANCE.**

ENGINEERED FRICTION PERFORMANCE

Powered by NeoKinetic Friction Technology™, NeoBrake brake shoes and air disc pads replicate the heat resistance and durability of asbestos-era friction materials to deliver consistent stopping power.

EXTENDED BRAKE LIFE

NeoBrake friction formulas are engineered for demanding refuse and vocational fleets. In real world applications they have been shown to triple brake life, while qualifying trucks can double lining life.

BUILT FOR SEVERE DUTY

From long haul highways to demanding vocational fleets, NeoBrake friction materials deliver reliable stopping power under extreme heat, heavy loads, and constant braking.

NBP20/23-FF

Unapologetic 20K and 23K medium-friction in Standard and Premium economy blocks.

20,000 lbs. GAWR | A.L. 180
23,000 lbs. GAWR | A.L. 165

NBCB230-FF/GG

A potent one-two combo pairing a street smart semi-metallic with an organic blend.

23,000 lbs. GAWR | A.L. 180

NBSM250-GG

This powerful semi-metallic doesn't sweat the big stuff and chuckles at the small.

23,000 lbs. GAWR | A.L. 180

Ask your Traction dealer about NewBrake products for your heavy duty equipment.

The *ULTIMATE* Wheel End Solutions Provider

For Medium and Heavy-Duty Applications

Choose **Webb Wheel Products** for premium braking solutions designed to perform in demanding medium and heavy-duty environments. From brake drums and hubs to rotors, calipers, and brake pads, our products deliver OEM-proven reliability, long-lasting durability, and industry-leading lead times. With Triangle Suspension Systems now part of Webb, our expanded portfolio includes high-quality suspension components, offering customers a more complete wheel-end solution.

Ask your local Traction representative about Webb Wheel.

77807BW Brake Drum:
Patented Drum Runs 15% Cooler, Lasts 25% Longer

ADB Calipers:
All new, no core calipers for the most popular applications

56864B Brake Drum:
Runs 10% Cooler, Lasts 10% Longer

Brake Pads:
Medium and Heavy-Duty Pads

ADB Rotors:
LifeShield™ Technology provides 2X Longer Life Cycle

SUSPENSION COMPONENTS

Spring potholes and summer heat put suspension systems to the test. Our heavy-duty suspension components are built to handle rough roads, heavy loads, and long hauls all to keep your fleet stable, smooth, and ready for the miles ahead. When the road gets tough, your suspension shouldn't.

AIR DISC BRAKE COMPONENTS

Spring miles and rising temperatures put braking systems under pressure. Air disc brake components with CRT (Cool Running Technology) improve airflow and heat transfer to help wheel ends run up to 10% cooler, reducing brake fade and extending component life. Better heat management means stronger performance, longer service intervals, and safer stopping power all season long.
