STRONG PARTNERSHIPS. STRONGER RESULTS.

Since 2007, we've been on a mission to keep businesses moving by delivering premium parts and services across a wide range of industries. As a division of Genuine Parts Company (GPC), a global leader in automotive and industrial parts and solutions, we have the reach and resources to source engines, transmissions, and components for nearly any fleet — from commercial trucks and mass transit vehicles to emergency services, construction equipment, agriculture, and marine vessels.

With an inventory of over 500,000 parts from over 1,000 of the most trusted suppliers in the industry, you'll always work closely with knowledgeable experts who can get you what you need, when you need it.

CHANGES NEXT.

COOLING PARTS THAT KEEP YOU MOVING

Summer heat can put extra stress on heavy-duty trucks. Automann helps you stay ready with AC service repair kits and fan shrouds designed to support cooling performance, improve airflow, and help keep trucks on the road.

Summer Cooling Essentials

Repair Kit

- 552-piece AC service repair kit in a convenient carry case
- Contains 4 smaller repair kits

Fan Shrouds

- Improved Airflow Efficiency
- Enhanced Engine Cooling
- Improved Fuel Efficiency
- Protection from Debris
- Reduced Fan Noise
- Extends Life of the Fan

Ask your Traction representative about Automann cooling solutions.

Donaldson.
FILTRATION SOLUTIONS

TRUSTED BY 8 OF THE TOP 10 OEMs. AVAILABLE AT TRACTION.

When it comes to keeping your farm machinery running strong, trust the name OEMs have relied on for years: Donaldson. From air, fuel, lube, and hydraulic filters to complete aftermarket solutions, Donaldson delivers the performance and protection your equipment needs.

Filters that fit a wide variety of Case, Fendt, John Deere, Massey Ferguson, and New Holland tractors and combines.

Warmer weather and increased road activity can put added demand on vehicle systems. Quality air and electrical components help maintain reliable performance by supporting critical functions like air delivery, charging, starting, and lighting. Investing in dependable components can reduce downtime, improve system efficiency, and keep trucks operating at their best throughout the season.
